Care & Maintenance

Before using, clean the table completely with a soft dry towel. When not in use, wipe free of any dirt or loose objects, wash with a mild solution of soap and water; rinse thoroughly and dry completely.

Do not use strong detergent or abrasive cleaners. When not in use, recommend the use of patio furniture covers.

Steel components of garden accessories and furniture are treated with rust inhibiting paint. However, due to the nature of steel, surface oxidation (rusting) will occur if this protective coating is scratched.

To minimize this condition, it is recommended that care be taken when assembling and handling the product, in order to prevent the paint from being scratched.

Like all topical coatings, cleaning should be with a non-abrasive neutral pH cleaner, you may call the toll free number 877-738-7325 to obtain it from V-SEAL Sealers.
