Sofpull® Dispensing System

1

Remove core by tearing along perforated seam marked in red. Pull paper tail from center of roll.

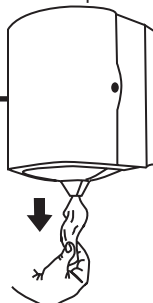

Saque el nucleo deprediendo a lo largo de la juntura perforada marcada en rojo. Hale el extremo del papel del centro del rollo.

2

Place roll into opened dispenser. Slide paper tail into dispensing cone.

Ponga el rollo en el dispensador abierto. Deslice el extremo del papel dentro del cono dispensador.

3

Close cover.
Dispense first towel.

Cierre la tapa. Saque la primera toalla.
