Step 1: Identify parts packed in the carton against the parts list. Remove all protective materials and set parts on a flat, non-abrasive surface. Place the natural stone table top upside down on a flat, non-abrasive surface. If you are missing any parts or are unsure how to proceed with assembly, please call our Customer Service Center immediately at 1-800-416-3511. **Do not attempt to assemble table if any parts are missing or damaged.**

Step 2: Attach a table leg to the leg connector bracket by using 1/4"x35 mm bolt and washer as shown in Fig.1. Guide the bolt through the hole in the leg connector bracket into the pre-drilled hole in the table leg. **Hand tighten only 2-3 revolutions.** Repeat on the other three legs.

Fig. 1

Step 3: Attach the completed base to the table rim by using the 1/4"x30 mm bolts and washers, as shown in Fig.2. Guide the bolt through the hole in the table leg into the pre-drilled hole in the table rim. **Hand tighten only 2-3 revolutions.** Repeat for the other three legs.

Fig. 2

Step 4: After making any necessary adjustments to the alignment of the table legs and the leg connector bracket, use the hex bolt driver and hex wrench to tighten all nuts and bolts. **Note:** each bolt and nut must be tightened a few revolutions at a time. In order to apply equal pressure to all bolt joints, we recommend working in a cross corner "X" pattern. Repeat until bolts and nuts are tight. **Do not over tighten.**

Step 5: With the help of another person, turn the table assembly in the upright position. With the help of another person, carefully place the natural stone table top onto the table base. After making any necessary adjustments to the alignment of the natural stone table top and the table rim, use the 1/4"x35 mm bolts and Ø18x1.5 mm washers as shown in Fig.3. Guide the bolt through the table rim, into the pre-drilled hole on the underside of the natural stone table top. **Do not tighten completely.** Repeat on the other three holes of the table rim. (Note: holes do not go through to the top of the table. Holes shown for illustration purposes only.)

Fig. 3

Step 6: At this time, use the hex bolt driver to tighten all bolts in the table top. **Note:** each bolt must be tightened a few revolutions at a time. In order to apply equal pressure to all bolts joints, we recommend working in a cross corner "X" pattern. Repeat until all bolts are tight. **Do not over tighten.** Cover all bolts with covers. Do not roll the table on its edges or drag the table. To move the table, use the assistance of another person to lift and carry the table.

Step 7: Adjust the footcaps as necessary by turning them to a level that prevents the table from rocking. Your natural stone table is now ready for use. If you use an umbrella, please add an umbrella hole protective ring to the umbrella hole on the natural stone top table. CARE AND MAINTENANCE

FRAMES

Cleaning - Use mild soap and warm water. Do not use abrasive materials, cleansers or bleach products. Rinse with clean water and dry thoroughly.

Maintenance Periodically clean and dry thoroughly. Be sure to drain any water accumulated inside the frames. To thoroughly drain frames, remove foot caps and tilt the frames, if necessary, to remove all water. This is critical. Water allowed to accumulate inside the frames and then exposed to sub-freezing temperatures can cause damage to the frame tubing. Such damage is not covered under warranty. Always clean, drain and dry thoroughly before storing for the winter. For best results, always store or cover your furniture when not in use. We recommend commercially available outdoor furniture covers. Any rust spots should be lightly sanded, treated with a commercially available rust inhibitor and followed by an application of touch-up paint. Any small nicks or scratches can be covered with a light application of touch-up paint.

** When cleaning or moving large or heavy items, always have two people work together. Never drag furniture.
