

Chetan Collection

Mr. Chetan Kakadiya our designer friend is originally from India and has been creating scintillating designs. He has been getting accolades from buyers all around the world for his very unique styling; his creations showcase the workmanship of a true legendary artist. Even the media has been covering him extensively for his designing genius.

The aesthetics and simplicity that his pieces have is soothing to the eye - sparkling white diamonds set in silver or gold; he says his pieces can be worn with everyday wear to an evening black dress party. He simply loves making beautiful things with his own bare hands. He gets his inspirations all the time, at the oddest of places and then the next thing he does is to sketch and draw what comes to his mind. Every month from all the designs he has sketched, he picks the piece that look the most beautiful & makes it come alive. It's our belief that you will enjoy his designer pieces forever.
