## Important Safety Information

- Please read all instructions carefully before assembling this product.
- Where applicable, and for your safety, assembly by an adult is strongly recommended.
- Use only vendor-supplied hardware to assemble this item. Using unauthorized hardware could jeopardize the structural integrity of the item.
- Hardware may loosen overtime. Periodically check that all connections are tight.
- **[NOTE :** Please add any additional required Safety information. These will be item dependent and based upon factory and industry standard requirements & recommendations.]

---

## Before Assembly

- Remove all parts and hardware from the box. Place all items on a carpeted or scratch-free work surface, as this will avoid damaging parts during assembly.
- The shipping box can provide an ideal work surface if none is available.
- Use the components and hardware lists below to identify, inventory and separate each of the hardware and components included.
- To avoid accidentally discarding small components or hardware, do not dispose of any packaging or contents of the shipping carton until assembly is complete.
- **DO NOT USE** power tools unless it is explicitly identified in this manual as required for use during assembly. Power tools can damage the fasteners, hardware and/or components.
- Do not fully tighten all fasteners / screws until all parts are in place. Failure to follow these instructions may cause the fasteners / screws to misalign during assembly.

---

## Care & Use

- Use a soft, clean cloth that will not scratch the surface when cleaning.
- **[NOTE :** Please add any additional required Care & Use Instructions. These will be item dependent and based upon factory and industry standard requirements & recommendations.]

## Product Information

Size (D x W x H) : 4.56" x 4.56" x 4.68" (11.58 x 11.58 x 11.88 cm)

Height above ground : 1.14" (2.90 cm)

Weight : 0.395 LB (0.18kg)

Includes 1 x 3.7V Li-ion 1200mAh rechargeable battery

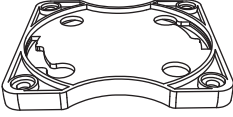

LED : 8 LEDs

Housing : 1. Metal : Oil-rubbed bronze

2. Plastic

## Components

(A)	(B)	(C1)	(C2)
			
Disc Light Qty : 6	Connecting Board Qty : 6	Ground Stake Qty : 6 (pieces)	Ground Stake Qty : 6 (pieces)

## Hardware

(H1)	(H2)
	
Screws Qty : 24	Screws Plugs Qty : 24

## Tools Needed for Assembly

Phillips Screwdriver

Electric Drill

3/16" (4.5mm)  
Masonry Drill Bit

## Before Assembly

### Choosing the Right Location

- A few important things to remember prior to installation.
  - Your solar lights should be installed in an area that gets **DIRECT SUNLIGHT**.
  - Your solar lights will produce more hours of operation when installed in an area which is free from cover, shade, or shadowing.

Note:

If the ground is hard and packed, moisten the ground with water before inserting the stake to avoid breakage.

### How Solar lights Work

Solar lights have a solar cell that converts sunlight into electricity that is used to recharge the built-in battery each day. A built-in sensor automatically turns on the light at night. The more sunlight is received during the day, the longer the light will operate.

## Assembly and installation

### A. Soil Ground Mount Installation :

#### Step 1

Turn "ON" the transparent cover switch at all times.

#### Step 2

#### Step 3

Completed stake assembly.

#### Step 4

#### Step 5

#### Step 6

Push the stakes securely into the ground.

#### Step 7

Completed.

## B. Concrete Mount Installation :

### Step 1

Turn "ON" the transparent cover switch at all times.

**Important:** Use the connecting board as a guide to drill four 3/16" (4.5mm) pilot holes into the concrete at the desired location.

### Step 2

Connecting board (B): both sides are usable

### Step 3

Insert screws plugs (H2) into the drilled holes on four sides of connecting board.

### Step 4

Secure mounting bracket to concrete with screws (H1). Do not over tighten screws.

### Step 5

Completed so far...

### Step 6

Attach disc light onto connecting board.

**Caution!!**  
If there are issues with assembly as shown, rotate counterclockwise to attach.

### Step 7

Completed.

## C. Wall Mount Installation :

### Step 1

Turn "ON" the transparent cover switch at all times.

**Important:** Use the connecting board as a guide to drill four 3/16" (4.5mm) pilot holes into the concrete at the desired location.

### Step 2

### Step 3

Insert screws plugs (H2) into the drilled holes.

### Step 4

Secure mounting bracket to brick with screws (H1). Do not over tighten screws.

### Step 5

Completed so far...

### Step 6

Attach disc light onto connecting board.

**Caution!!**  
If there are issues with assembly as shown, rotate counterclockwise to attach.

### Step 7

Completed.

## Battery Precautions

### **Warning**

- Do not use alkaline, standard (Carbon-Zinc), or rechargeable (Nickel Cadmium) batteries.
- Do not dispose of batteries in fire.
- Important : Use only 1 x 3.7V 1200mAh Li-ion rechargeable battery.

### Care & Use Instructions

1. Use only the size and type of battery specified.
2. Always purchase the correct size and grade of battery.
3. Be sure to follow the correct polarity when installing the battery as indicated in the battery compartment. A reversed battery may cause damage to the device.
4. Remove battery if product is to be left unused for an extended period of time

### Replacing the battery

1. Remove battery compartment cover.
2. Remove old battery.
3. Insert one (1) new 3.7V 1200mAh battery (not included).
4. Make sure to follow the battery polarity guide when installing a new battery.
5. Replace battery compartment cover.
