## Important Safety Information

- *Please read all instructions carefully before assembling this furniture.*
- *For your safety, assembly by two or more adults is strongly recommended.*
- *Use only vendor-supplied hardware to assemble this item. Using unauthorized hardware could jeopardize the structural integrity of the item.*
- *Hardware may loosen overtime. Periodically check that all connections are tight.*

## Before Assembly

- *Remove all parts and hardware from the box. Place all items on a carpeted or scratch-free work surface, as this will avoid damaging parts during assembly.*
- *The shipping box can provide an ideal work surface if none is available.*
- *Use the components and hardware lists below to identify, inventory and separate each of the hardware and components included.*
- *To avoid accidentally discarding small components or hardware, do not dispose of any packaging or contents of the shipping carton until assembly is complete.*
- *DO NOT USE power tools unless it is explicitly identified in this manual as required for use during assembly. Power tools can damage the fasteners, hardware and/or components.*
- *Do not fully tighten all fasteners / screws until all parts are in place. Failure to follow these instructions may cause the fasteners / screws to misalign during assembly.*

# Care & Use Instructions

## **CARE AND MAINTENANCE**

### **FRAMES**

*Cleaning* - Use mild soap and warm water. Do not use abrasive materials, cleaners, or bleach products. Rinse with clean water and dry thoroughly.

*Maintenance* - Periodically clean and dry thoroughly. Be sure to drain any water accumulated inside the frames. To thoroughly drain frames, remove foot caps and tilt the frames, if necessary, to remove all water. This is critical. Water allowed to accumulate inside the frames and then exposed to sub-freezing temperatures can cause damage to the frame tubing. Always clean, drain, and dry thoroughly before storing for the winter. For best results, always store or cover your furniture when not in use. We recommend commercially available outdoor furniture covers. Any small nicks or scratches can be covered with a light application of touch-up paint.

**\*\*** When cleaning or moving large or heavy items, always have two people work together. Never drag furniture.

### **FABRICS (CUSHIONS/SLINGS)**

*Cleaning* - Wipe minor spills immediately. Clean with mild soap, warm clean water, and a soft cloth. Do not use abrasive materials, cleaners, or bleach products. Although fabric has been treated to resist stains, occasional use of commercially available fabric cleaners may be necessary. Follow manufacturer's instructions.

*Maintenance* - The best way to maintain the beauty of cushions and slings is to store them in a dry area and out of the elements when not in use or cover with commercially available outdoor furniture covers.

Furniture covers are a great way to protect your set from harsh elements of weather and UV light. However, it is important to ensure furniture and covers are free of moisture and debris before covering. It is also necessary to promptly uncover furniture after rain and during periods of high humidity to prevent moisture build up. Failure to do so can lead to permanent surface and finish damage.

### **STRAPS**

*Cleaning* - Wash frequently with mild soap, warm water, and a soft cloth. Rinse thoroughly with warm, clean water. Do not use abrasive materials, cleaners, or bleach products.

*Maintenance* - Periodic application of commercially available vinyl cleaners and vinyl protectors will enhance the look and prolong the life of straps. If your strap chair has cushions, make sure any vinyl protectors applied are completely dry before placing cushion back on the chair.

### **CERAMIC TILE**

Use clean water and mild detergent or commercially available ceramic tile cleaners as necessary. Do not use abrasive materials or cleansers as they may scratch the surface of the tiles. Dry with soft cloth. Do not use commercially available ceramic tile cleaners on table frame.

### **UMBRELLA USAGE WARNING!**

If you will be using an umbrella with your table, make sure the plastic umbrella ring is inserted into the hole in the center of the table. Place the umbrella through the opening and into an umbrella stand made of cast iron, wrought iron, steel plate or blow molded plastic filled with 20-50 lbs or 9-22 kgs of sand and water. If your table is 72" or 182 cm or larger, we recommend a weight of at least 50 lbs or 22 kgs or more. **NEVER USE AN UMBRELLA WITH A TABLE WITHOUT USING AN UMBRELLA BASE AND RING AS DESCRIBED ABOVE. ALWAYS REMOVE YOUR UMBRELLA FROM THE TABLE WHEN NOT IN USE. NEVER USE AN UMBRELLA DURING STORMS OR WINDY CONDITIONS.**
