## CARE & MAINTENANCE

### Fabric Care Tips

- Be sure to vacuum on a weekly basis so dust and dirt do not settle into the fabric.
- Wrinkles in the fabric are a natural part of normal wear
- Fabric can fade when exposed to direct sunlight over a long period of time.
- To minimize fading, avoid placing your furniture in direct sunlight.
- Avoid cleaners which use chemical products. Many of these are harsh and not safe for use on upholstery.
- Stress to the fabric may result in tears and when stretched, upholstery may not completely return to its original shape.
- Avoid sitting in one area and use the seating areas evenly for even wear.
- Fabric is not resistant to animals. Allowing pets on your upholstered furniture is not recommended.
- If pillow cushions are sewn to the frame, any pulling or tugging may result in a tear.

### Wood Care Tips

- Wood color can fade and/ or sun bleaching can occur when exposed to direct sunlight over a long period of time.
- Avoid placing your furniture in direct sunlight.
- Rearrange accessories over time to prevent spot bleaching.
- For daily maintenance, use clean and soft rags or cloths to wipe off dust on the surface along the grains.
- Never use damp rags or anything with a hard surface to rub onto the furniture.
- Always keep surfaces clear of any acid or chemical substances.
- To avoid damage refrain from stacking large and/or heavy objects on top of the furniture.
- Avoid cleaners which use chemical products. Many of these are harsh and not safe for use on upholstery.
