## CARE & MAINTENANCE

### Leather Care Tips

- Fabric can fade when exposed to direct sunlight over a long period of time.
- To minimize fading, avoid placing your furniture in direct sunlight.
- Avoid cleaners which use chemical products. Many of these are harsh and not safe for use on upholstery.
- Stress to the fabric may result in tears and when stretched, upholstery may not completely return to its original shape.
- Avoid sitting in one area and use the seating areas evenly for even wear.
- Leather and fabric are not resistant to animals. Allowing pets on your upholstered furniture is not recommended.
- If pillow cushions are sewn to the frame, any pulling or tugging may result in a tear.
