# Sam's Club Drug List for Plus Members\*

Join or renew as a **Sam's Plus® Member** to receive extra discounts on select prescription drugs, including five select prescriptions available for free every day, over 200 prescriptions available at \$4 and over 400 prescriptions available at \$10.\*

**Prices valid as of December 5, 2019 | Bold items indicate name-brand drugs.**

**List is not comprehensive. See Pharmacist for additional brand-name & generic drug savings.**

- Sam's Club® Rx Savings List (the "Program") prices are available only at Sam's Club Retail Pharmacy locations and only to Sam's Club Members and Sam's Club Plus Members.
- The Program applies only to certain generic drugs at commonly prescribed dosages. Higher dosages cost more. You may obtain a list of generic drugs and dosages covered under the Program at Sam's Club Retail Pharmacies (the "Rx Savings List") or at **SamsClub.com/RxSavings**. The RxSavings List may change and also may vary by state. Not all formulations of a drug (for example, enteric-coated, extended- or timed-release formulations) are covered under the Program. Program pricing is not available when a covered drug is dispensed as part of a compound.
- Under the Program, the price listed on the Rx Savings List is the price for up to a 30-day supply of certain covered generic drugs at commonly prescribed dosages as listed on the Rx Savings List. If the prescribed quantity exceeds the stated 30-day supply amount listed on the Rx Savings List, any amount above the stated 30-day supply would price at a prorated per-unit price. For \$0 medications, any quantity up to and including the stated 30-day supply would price at \$0, while any amount above the stated 30-day supply would price at a prorated per-unit price.
- Prepackaged drugs are covered under the Program only in the unit sizes specified on the Rx Drug List. Prepackaged drugs are dispensed based on the quantities prescribed and unit sizes in stock at the dispensing Pharmacy. Unit sizes not specified on the Rx Savings List are not covered under the Program. Multi-unit purchases are charged at a per-unit price based on the price per unit size dispensed unless otherwise specified. Prepackaged drugs dispensed in unit sizes not specified on the Rx Savings List may be priced higher, even if equivalent quantities of the drug are available in specified unit sizes. Prorated pricing is not available under the Program for prepackaged drugs.
- Prices of certain drugs covered by the Program may be higher in some states, as noted on the Rx Savings List.
- Program pricing may be limited to select manufacturers of a covered drug and is available as long as supplies from such manufacturers are in stock at the dispensing Pharmacy.
- Program pricing does not apply to purchases submitted to any health benefit program, pharmacy benefit program, insurer or government health care program. Discount is nontransferable, may not be combined with other offers and is available in-club only. Valid prescription required.
- An active Sam's Club Plus Membership is required for program eligibility. Such membership must be confirmed before discounts are applied. There are no substitutions.
- These Program details are subject to change without advance notice. Changes to these Program details may be made only in writing.
- Interpreter Services are available at no cost. Please visit your local Sam's Club for assistance.
