- Weighs up to 45% less than a traditional dryer
- Easy to transport – only 11.5" tall
- Stackable design – easier to store and transport
- Convenient carry handle and cord hook
- Daisy chain up to 4 dryers with the PDH2 (Deluxe model)
- 2 drying positions with PDH1 (Standard model)
- 4 drying positions with PDH2 (Deluxe model)

STACKABLE DESIGN

Easier to store and transport

Warm air is pulled down and across the carpet for faster dry times.

STATE-OF-THE ART DRYING TECHNOLOGY

The new Powr-Flite Hybrid dryer combines the best features of a squirrel cage design with the increased drying power of an axial fan. Leveraging "state-of-the-art" engineering, this dryer has an incredible maximum air velocity of 3400 feet per minute in a compact, yet highly efficient size. Carpets dry quickly under the high-volume, high-velocity airflow. Long-lasting and durable, the Hybrid dryer is built with heavy duty, molded co-polymer polypropylene to withstand the tough, every-day use of contract cleaners, restoration professionals and more.

The revolutionary Powr-Flite Hybrid dryer increases air-flow, drying efficiency, safety and minimizes down time in a room or larger facility.

Stack and store two Hybrid dryers in the same space as one traditional dryer.

DAISY-CHAINABLE

The PDH2 (Deluxe model) offers an integrated power outlet with circuit breaker protection. Daisy chain up to 4 PDH2 at one time
