

Rx delivered to your door.

Easy. Fast. Convenient.

Same-day prescription delivery.

With Sam's Club Pharmacy's prescription delivery option, you can have eligible medications delivered straight to your home — saving you time and giving you peace of mind.

Sam's Club membership not required.

How it works: Prescription delivery in 3 easy steps.

1. Enroll in pharmacy text messaging

To access prescription delivery, you'll need to be enrolled in our pharmacy text messaging program.

You can enroll in two easy ways:
Talk to your pharmacist during your next visit to the pharmacy window or call the pharmacy team and ask to be enrolled over the phone.

2. Watch for a text when your prescription is ready

Once your prescription is filled and ready, you'll receive a text message from the pharmacy.

This message includes a secure link.

3. Click the link and select delivery

You'll be able to choose the date and time that works best for you.

Then, sit back and relax — your prescription will arrive at your doorstep!

Have questions or need help?

Our pharmacy team is happy to assist. Call us or stop by the pharmacy anytime you are in the club. We are happy to answer questions, confirm text message enrollment and assist with prescription transfers from other pharmacies.

Delivery not available for prescriptions for controlled substances, pseudoephedrine, refrigerated items, compound prescriptions, or for prescriptions paid by Medicare Part B. Talk with your Sam's Club pharmacist to determine if your prescription is eligible for delivery and to receive further information. Additional program details can be found [here](#).
